

NM Tobacco Control Health & Economic Outcomes

Since 2011, declines in youth and adult smoking rates in New Mexico have sharply reduced the harms and costs caused by smoking in the state. There are now...

9,400 FEWER
Youth smokers

63,500 FEWER
Adult smokers

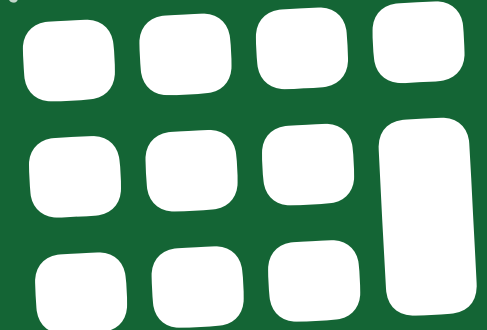

29,500 FEWER
Kids alive today who
will become smokers

25,200 FEWER
Premature deaths among
today's NM residents

Estimated Future Health
Cost Savings from Youth and
Adult Smoking Declines

\$1.3 Billion
